

# **BLAKE WOODS MEDICAL PARK SURGERY CENTER**

**PLEASE READ CAREFULLY**

## **ADVANCED DIRECTIVES**

In accordance with federal law, this facility is notifying you that it will not honor previously signed Advanced Directives for any patient. However, we will forward your Advanced Directives to whatever facility you are transferred if an event occurs requiring your transfer. If you disagree with this policy, you must address this issue with your physician or anesthesiologist prior to signing any form.

In the ambulatory care setting, if a patient suffers a cardiac arrest, respiratory arrest or other life-threatening situation, he/she will be resuscitated and transferred to a higher level of care. Upon admission to Blake Woods Medical Park, he/she will be asked to sign a consent agreeing to this transfer in the event he/she experiences a life-threatening situation during his/her stay.

Thank you for your cooperation in this matter.
